Description:

This ergonomic construction combines maximum comfort and low weight.

Flat profile of harness also guarantees unlimited movement.

The new ergonomic braided gear loops are shaped to facilitate handling and to provide enough space for your climbing gear.

one Rock&Lock buckle on the waist belt

Unique, patented Rock&Lock buckle are newly made of stainless steel to increase corrosion resistance.

Fresh and simple design will win favor with you and your buddies as well.

New webbing is more durable and works better in our R&L buckle, making the tightening smoother.

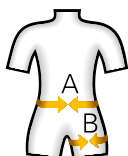

For both leg loops and waist belt the variable width webbing is used.

Bright color belay loop 12 mm with strength 15 kN.

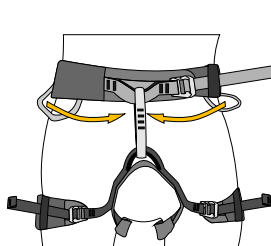

Flexible leg loops with elastic straps adapt to the user's legs.

Fixed bridge between the leg loops provides a greater safety in case of incorrect tying.
